**INTRODUCTION:** Eternal peace (Kant) is *conditio sine qua non* for prevention of self-destruction of humanity. Permanent military interventions incl. asymmetric wars, increased morbidity, toxicants-degeneration, overpopulation, atomic-ecological disasters, etc. needs *new philosophical-juridical-political-conceptions preventing global catastrophes*. About philosophy-law-policy inform *Platon-Aristoteles-Cicero/ Confucius-Patanjali-Sri Aurobindo/ Al-Biruni/ Hobbes-Locke/ Machiavelli-Montesquieu, etc.*, but Kant described principles of *eternal-peace* (preliminary-definitive-articles, etc.). Fundamentals of European-civilization are given in Athens-Hellas-Rome-Byzanz (*Socrates-Platon-Aristoteles/ Archimedes-Hippocrates-Pythagoras-etc./ Perikles-Themistokles-Alexandre the Great-Caesar-Trajan-Constantin the Great*. After 2<sup>nd</sup> World War was created United Nations Organization (UNO, agreement between Churchill, Roosevelt, Stalin).

**CONCEPTION:** UNO cannot protect evidently international peace: Renewal of principles for democracy-liberty, etc. by humanistic-moral-spiritual-meritocratic fundamentals reflected in UNO-agencies of international/(con-)federal institutions via networks of national ones are necessary: *International scientific academies/ universities/ schools/ hospitals/ ecological centres* could counteract *chaotic globalization*. **New political world organization** via **creation of Con-Federatio Afro-Asiatica** (Near-East), incl. *Israel-Lebanon-Palestine-Federation = ILPF*, also *Pan-Americana, Asio-Australica (pacifica)* incl. Japan-Korea up to Australia, *Chino-Asiatica/Indo-Asiatica* (India-Pakistan-Nepal,etc.), *Pan-Europea (Atlantic to Pacific)* could support *eternal peace idea*. Con-federal governments with *United-(Sub-)Continental-Nations-Organizations (UCNO)* could renew UNO electing **world senate & parliament & government** (considered by *Kant-Russell*, others).

**CONCLUSION:** Conception about *UCNO* could renew UNO. Creation of cultural-political (sub-)continental confederations could lead to eternal global peace counteracting non-scientific policy. UNO-UNESCO-EU could authorize philosophical and juridical societies **FISP/IVR/ILA**, etc., also continental/national philosophical&juridical organizations to build permanent interdisciplinary committees in context of *Pax Kantiana*. IVR could initiate renewal of science by foundation of an *International Academy for Philosophy of Law* in Suisse with continental and national branches, similar to *European Academy for Neurology* (1<sup>st</sup> congress Berlin-2015): This way could be prepared concrete political proposals for UNO-EU-national governments.
